
What is a preferred pharmacy network?

This is a network of pharmacy “partners” who have agreed to work with us to keep plan costs low. This will allow your trust to provide you with better benefits for a longer time.

There are 284 pharmacies and pharmacy chains in the StelTrust PPN. If you have a question, or would like to suggest that a pharmacy be included, email us at stelcobenefitstrust@gmail.com.

How will a PPN save us money?

Pharmacies apply a markup on the prescriptions they fill for you. Some pharmacies charge as much as 21% on top of the cost of the drug. This can add up to a lot of money on prescriptions that may cost thousands of dollars each.

Our pharmacy partners have agreed to limit mark-ups to 10% on brand drugs and 8% on generic drugs.

They also have agreed to charge only \$7 to fill a prescription. Together these measures can save your plan and you thousands of dollars a year.

What do I need to do?

Go to one of the pharmacies listed on the following pages. Tell the pharmacist you are with the Stelco non-USW retiree benefits trust (StelTrust) and show them your GSC ID card.

If this is a new pharmacy for you, they can easily transfer all of your prescriptions over to their store with one phone call. You don’t need to do anything. And, ask them about other services and deals they might have for StelTrust retirees.

If your pharmacy isn’t on the list, tell your pharmacist your plan only pays 10% mark-up on brand drugs, 8% on generic and a \$7 dispensing fee. If your pharmacy won’t adjust its price, say thanks, but no thanks. You can choose to pay the extra cost out of your own pocket. Or you can get the exact same drug – at a preferred price – through our all-new Preferred Pharmacy Network (PPN).

StelTrust Preferred Pharmacy Network
