(This footwear is used to accommodate the bony and structural abnormalities of the feet and lower legs resulting from trauma, disease or congenital deformities.)

Custom made foot orthotics means a device made from a 3-dimensional model of an individual's foot and made from raw materials. (This device is used to relieve foot pain related to biomechanical misalignment to the feet and lower limbs.)

DESCRIPTION OF BENEFITS

HEALTH BENEFIT PLAN

The benefits shown below will be eligible, up to the amount shown in the Schedule of Benefits, if they are reasonable and customary, and are medically necessary for the treatment of an illness or injury.

Prescription Drugs

Prescription drug benefits, up to the amount shown in the Schedule of Benefits, that:

- a) are prescribed by a legally qualified medical practitioner or dental practitioner as permitted by law; and
- b) legally require a prescription and have a Drug Identification Number (DIN);
- c) are approved under GreenShield's drug review process; and
- d) are paid on a Pay Direct basis.

GreenShield reserves the right to manage its drug formularies through an evidence-based review process in which drugs are evaluated based on overall value taking into account clinical efficacy, safety, unmet need and plan affordability. Formulary management includes the right to:

- add a drug to GreenShield's formularies;
- exclude or remove a drug from GreenShield's formularies regardless of Health Canada approval and/or the existence of provincial coverage;
- place restrictions on a formulary drug as determined by GreenShield. Restrictions may include, but are not limited to, GreenShield's pre-approval of the drug before the claim can be reimbursed, requirement to obtain the drug through an approved provider, and requirement to obtain a lower cost alternative of the same treatment such as a generic or a [biosimilar drug](#).

If approved by GreenShield, this plan includes drugs with a Drug Identification Number (DIN) that do not legally require a prescription, including, but not limited to nitroglycerin, insulin and all other approved injectables, as well as related supplies such as diabetic syringes, needles and testing agents. In addition, this plan includes vaccines for the prevention of respiratory syncytial virus (RSV).

Before your drug claim can be reimbursed, GreenShield may require prior authorization or GreenShield may require the drug to be purchased from an approved pharmacy that is a member of GreenShield's Specialty Care Program. You can find out if your drug requires prior authorization or is covered under GreenShield's Specialty Care Program either by using the online drug search tool available to you through the member portal or by contacting GreenShield's Customer Service Centre. Further, reimbursement of reference drugs (including biologics) that have an approved biosimilar may not be reimbursed or may be limited to the lower cost drug unless medical evidence is provided.

Quebec Retired Employees

In no event will the amount dispensed exceed a 3-month supply (6 months if a vacation supply is required) of a prescription at any one time and not more than a 13-month supply in any 12 consecutive months.

All other Retired Employees

Maintenance drugs required to treat lifelong chronic conditions may be required to be purchased in a 90-day supply of a prescription at any one time. Non-maintenance drugs may be purchased in a supply not exceeding 3-months (90-day) supply of a prescription at any one time. However, for all drugs, 6 months for a vacation supply may be purchased and not more than a 13-month supply in any 12 consecutive months.

Conditional Drug Formulary™ - Effective January 1, 2018

New drugs introduced to the Canadian marketplace and approved by Health Canada after **January 1, 2018** (conditional/controlled date) will be subject to an evaluation process by GreenShield to determine the Need, Safety, Effectiveness and Cost.

Upon filling a prescription, your Pharmacist will know whether the drug is covered, covered with conditions or not covered. If the drug is covered with conditions, you must contact our Customer Service Centre to obtain a Special Authorization Form and a Criteria Sheet for your physician to complete. Once these forms are completed, they must be returned to GreenShield for review. We will advise you if the drug is covered or not covered. Once the drug has been approved for your use, all future claims can be submitted electronically.

Mandatory generic drug substitution

Based on specific provincial health insurance plan regulations, where a generic equivalent drug exists, reimbursement will only be made up to the cost of the lowest priced equivalent drug.

NOTE:

Drug Benefit over age 65: The Ontario Drug Benefit co-pay and the deductible **are** eligible benefits.

Quebec residents only: Legislation requires GreenShield to follow the RAMQ (The Régie de l'assurance maladie du Québec) reimbursement guidelines for all residents of Quebec. If you are younger than age 65, you must enroll for the GreenShield Prescription Drugs benefit plan and GreenShield will be the only payer. If you are age 65 or older, enrolment in RAMQ is automatic, enrolment in the GreenShield Prescription Drugs benefit plan is optional, and RAMQ would be first payer.

If any provisions of this plan do not meet the minimum requirements of the RAMQ plan, adjustments are automatically made to meet RAMQ requirements.

Eligible benefits do not include and no amount will be paid for:

- a) Drugs for the treatment of erectile dysfunction and infertility;
- b) Vitamins that do not legally require a prescription;
- c) Vaccines (other than vaccines for the prevention of respiratory syncytial virus (RSV));

The covered person can choose to have a more expensive treatment performed, however reimbursement will be limited to the cost of the least expensive alternative.

Predetermination

Before your treatment begins, your dental practitioner must submit an estimate, including supporting materials, such as digital photos and x-rays, for any proposed treatment for which the total cost is expected to exceed \$500. Our assessment of the proposed treatment may result in a lesser benefit being payable or in benefits being denied.

Failure to submit an estimate before treatment begins will delay the assessment of your claim.

Limitations

1. Laboratory services must be completed in conjunction with other services and will be limited to the co-insurance of such services. Laboratory services that are in excess of 40% of the dentist's fee in the applicable Fee Guide shown in the Schedule of Benefits will be reduced accordingly; co-insurance is then applied;
2. Reimbursement will be made according to standard and/or basic services, supplies or treatment. Related expenses beyond the standard and/or basic services, supplies or treatment will remain your responsibility;
3. Reimbursement will be pro-rated and reduced accordingly, when time spent by the dentist is less than the average time assigned to a dental service procedure code in the applicable Fee Guide shown in the Schedule of Benefits;
4. Reimbursement for root canal therapy will be limited to payment once only per tooth. Extra charges for difficult access, exceptional anatomy, calcified canals and retreatments are not included. The total fee for root canal includes all pulpotomies and pulpectomies performed on the same tooth;
5. Common surfaces on the same tooth/same day will be assessed as one surface. If individual surfaces are restored on the same tooth/same day, payment will be assessed according to the procedure code representing the combined surface. Payment will be limited to a maximum of 5 surfaces in any 36 month period;
6. When more than one surgical procedure, including multiple periodontal surgical procedures, is performed during the same appointment in the same area of the mouth, only the most comprehensive procedure will be eligible for reimbursement, as the fee for each procedure is based on complete, comprehensive treatment, and is deemed part of the multiple services factor;
7. The multiple services factor occurs when a minimum of 6 or more restorations (fillings) or multiple periodontal services are performed at the same appointment and the full fee guide price is charged for each restoration or periodontal service, the first service will be paid in full and all remaining services will be reduced by 20%;
8. Core build-ups are eligible only for the purpose of retention and preservation of a tooth when performed with crown treatment. Necessity must be evident on mounted pre-treatment X-rays. Core build-ups to facilitate impression taking and/or block out undercuts are considered included in the cost of a crown;
9. Root planing is not eligible if done at the same time as gingival curettage;
10. In the event of a dental accident, claims should be submitted under the health benefit plan before submitting them under the dental plan.

In cases of third party liability, you must advise your lawyer of our subrogation rights.

Co-ordination of Benefits (COB)

If you are covered for extended health and dental benefits under more than one plan, your benefits under this plan will be coordinated with the other plan so that you may be reimbursed up to 100% of the eligible expense incurred.

Claims must be submitted to the primary payer first. Any unpaid balances should then be submitted to the secondary plan(s). Use the following guidelines to identify the primary and secondary plans:

GreenShield Plan Member

GreenShield coverage for you is always primary. If you are the plan member under two group plans, priority goes in the following order:

- The plan where you are a full-time plan member
- The plan where you are a part-time plan member
- The plan where you are a retiree

Spouse

If your spouse is a plan member under another benefit plan, this GreenShield coverage is always secondary. Your spouse must first submit claims to his/her benefit plan.

Children

When dependent children are covered under both your GreenShield plan and your spouse's benefit plan, use the following order to determine where to submit the claims:

- The plan of the parent whose birth date (month and day) occurs earliest in the calendar year
- The plan of the parent whose first name begins with the earlier letter of the alphabet, if the parents have the same birth date
- In cases of separation or divorce with multiple benefit plans for the children, the following order applies:
 - The benefit plan of the parent who has custody of the dependent child
 - The plan of the spouse of the parent who has custody of the dependent child
 - The plan of the parent who does not have custody of the dependent child
 - The plan of the spouse of the parent who does not have custody of the dependent child

If the parents have joint custody and both have the children listed as dependents under their plans, claims should first be submitted to the plan of the parent whose birth date (month and day) occurs earliest in the calendar year. Balances can then be submitted to the other parent's plan.

When GreenShield is identified as a secondary carrier, submit the original Explanation of Benefits statement from the primary carrier and a copy of the claim form in order to receive any balances owing.

If you live in a province where the law permits you to request copies of your records, GreenShield will provide one copy of the following at no charge:

- b) any written statements or other record about your health that you submitted to GreenShield during the course of applying for coverage under this plan;
